NPT thread, other slip-on connections, weld-on version and material 2.4602 (Alloy 22) on request.
The max. tank diameter shown above applies for the recommended operating pressure and has to be seen as a recommendation.
The cleaning result is also affected by the type of soiling.
Operating with compressed air only for short-term usage. Operation above the recommended operating pressure has negative effects on the cleaning result and wear.

## Information slip-on connection

- Pin made of stainless steel 316L included (Ordering no. 05M.330.1Y.00.00)
- Depending on diameter of the adapter, the flow rate increase due to leakage between connecting pipe and rotating cleaning nozzle.
- Minimum insertion diameter (with mounted pin) is 59 mm .
